Innovative solution – *SiloConnect* to remotely monitor silo levels for logistics optimization by Nanolike

Date: Thursday, 16.10.2025

Time: 02.15 pm to 03.15 pm

Registration Link: : [Click here to register and confirm your presence!](#)

Mr. Jean-Jacques Bois
CEO, Nanolike

Exclusive presentation and Q & A session with **Mr. Jean-Jacques Bois, CEO of Nanolike**. The French company Nanolike has developed **SiloConnect**, an innovative remote silo monitoring solution that enables cement/ RMC producers to optimize delivery planning, reduce logistics costs, and enhance customer satisfaction.

Already adopted by leading global players such as **Holcim, Cemex, and Heidelberg** across 20+ countries, this technology is transforming the way the industry manages supply chains.

For **Cement or RMC producer or supplier**, this is an opportunity to discover how to shift from reactive deliveries to a **proactive, data-driven sales model**—using logistics not only to improve efficiency but also to drive business growth and strengthen customer loyalty.
